

Add Equipment to a Location

Quick Reference Guide

Below are instructions on how to add equipment to a location. Steps are included for adding equipment to an existing location, as well as to a new location. These steps are for the ISO user as Merchant users can view the equipment for their location but cannot add it. Please note, only one Virtual Terminal can be added per location.

Adding Equipment to an Existing Location:

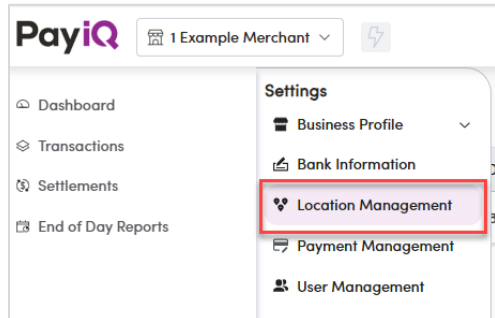

Navigate to Settings > Merchant Management

Select the Merchant.

Account Name ^	ISO	Last Batch Date	Boarded Date	Application Status	Status
1 Example Merchant	Practice ISO	02/29/2024 10:24:33 AM EST	10/05/2023 09:51:43 AM EDT		Active
Example Merchant 2	Practice ISO	03/12/2024 10:28:15 AM EDT			New
Practice Merchant EP	Practice ISO EP	02/14/2024 06:21:28 PM EST	11/07/2023 08:54:27 AM EST		Active

From the Merchant, select Location Management.

Select the Location you would like to add equipment to.

Location Management All Groups Viewing 1 Locations Location

Actions	Merchant ID (MID)	Name	Group	Locale	Timezone	Status
	211200000002908	Location A	Group For 1 Example Merchant	en	Eastern Time (US & Canada)	Active

Under Equipment Inventory, click the button to Add Equipment.

Locations / Edit Location A

Equipment Inventory

Use this page to add equipment such as terminal devices to the inventory of a merchant location. You may add multiple products as needed, but only one Virtual Terminal can be added for a location. Once equipment has been added to a location, this page can also be used to update the status of a product – Activate, Freeze, or Close.

+ Equipment

Product	Name	Serial Number	Terminal Id	Status
Virtual Terminal	VT#1	1.0	dt2S.7	Active

Enter the Equipment information. The Product and Name are required.

Equipment ×

Product * Name *

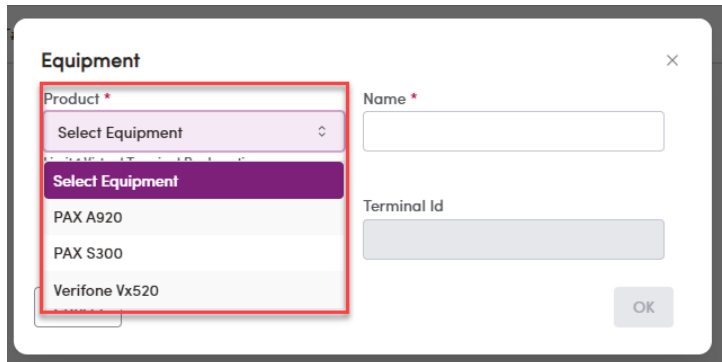

Select Equipment

Limit 1 Virtual Terminal Per Location.

Serial Number Terminal Id

Cancel OK

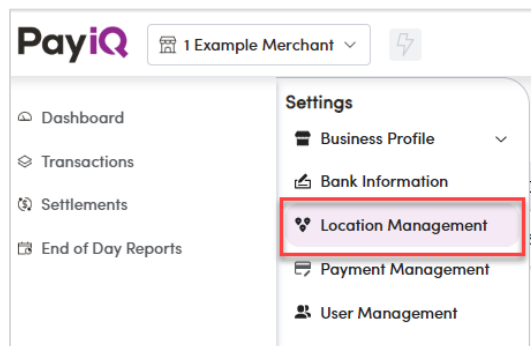

If there is already a Virtual Terminal for that location, the option will not appear in the Product dropdown.

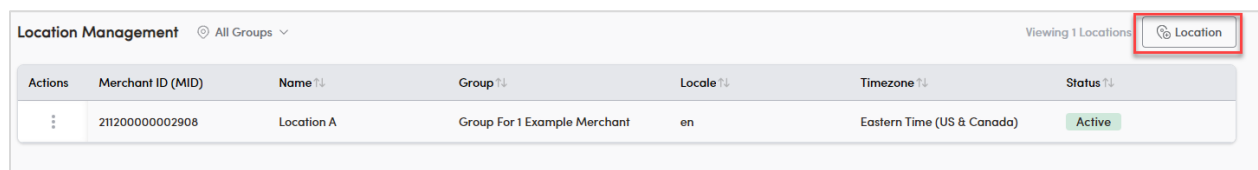

The image shows a modal window titled "Equipment" with a close button (X) in the top right corner. It contains two main sections: "Product" and "Name". The "Product" section has a dropdown menu with the text "Select Equipment" and a list of options: "PAX A920", "PAX S300", and "Verifone Vx520". The "Name" section has a text input field. Below the "Name" field is a "Terminal Id" label and a corresponding text input field. An "OK" button is located at the bottom right of the modal.

Adding Equipment to a New Location:

Navigate to Settings > Location Management

In Location Management, click the button to Add Location.

The image shows the "Location Management" interface. At the top, there is a header with "Location Management" and a dropdown for "All Groups". On the right, it says "Viewing 1 Locations" and there is a button labeled "Location" with a plus icon, which is highlighted with a red box. Below the header is a table with the following columns: "Actions", "Merchant ID (MID)", "Name", "Group", "Locale", "Timezone", and "Status". The table contains one row with the following data: "211200000002908", "Location A", "Group For 1 Example Merchant", "en", "Eastern Time (US & Canada)", and "Active".

Actions	Merchant ID (MID)	Name	Group	Locale	Timezone	Status
	211200000002908	Location A	Group For 1 Example Merchant	en	Eastern Time (US & Canada)	Active

Complete each page required for a new location. Under Equipment Inventory, click the button to Add Equipment.

Enter the Equipment information. The Product and Name are required.

Since there is no existing Virtual Terminal for the new location, that option will appear in the Product dropdown.
