

Refund a Transaction

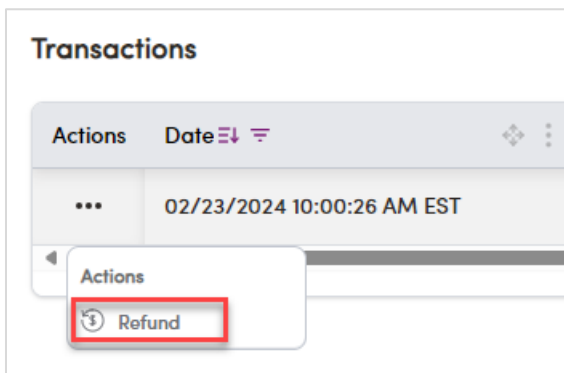

Quick Reference Guide

A Merchant or ISO user can refund a transaction from the Transactions table in the PayiQ portal using the steps outlined below.

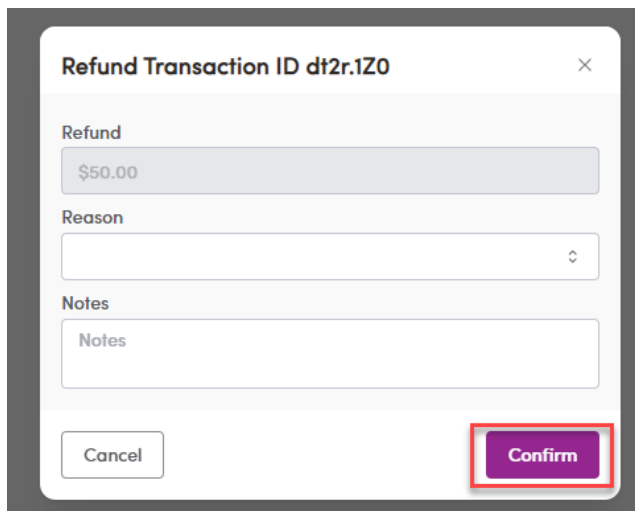

1. Select Transactions from the menu on the left side of the portal.

2. Under Actions, click the 3 horizontal dots and select Refund.

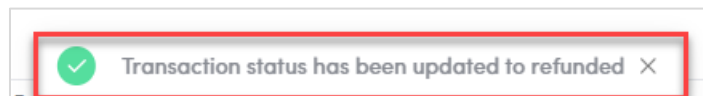

3. In the popup select the Reason, add any notes, then click Confirm.

A modal popup titled "Refund Transaction ID dt2r.1Z0" with a close button (X) in the top right corner. The form contains three main sections: "Refund" with a text input field showing "\$50.00", "Reason" with a dropdown menu, and "Notes" with a text area. At the bottom, there are two buttons: "Cancel" and "Confirm". The "Confirm" button is highlighted with a red rectangular border.

4. A message will appear at the bottom of the page indicating that the transactions Status has been updated to Refunded.

5. The transaction will show as Refunded under Status on the Transactions table.
NOTE: The columns in the Transactions table can be reordered, so the Status column may appear elsewhere on the table depending on your configuration.

Actions	Date	Transaction Id	Location	Amount	Risk Score	Card Number	Payment Method	Status
...	02/23/2024 10:00:26 AM EST	dt2r.1Z0	Location A	\$50.00	0	55555xxxxxx4444	Mastercard	Refunded
